# Rustic Bakery

“Rustic and charming”

A hand-crafted shop fitout to complement the hand-crafted bread produced by Brett Holbing of Rustic Bakery. The attention to design detail provided by CDS was the essential ingredient for the success of this bakery.

## D2 Cafe

### “Warmth in wood”

A warm, comfortable environment was created for this cafe by using solid mahogany timber.

Designed by Marcus D’Amico Architects and project managed by Spaces Australia, CDS contributed our experience in joinery to ensure a great result and a happy client.

# Gusto

**“Succeeding where others fail”**

Designed to fit proudly into the stylish Clarendon Centre, South Melbourne, CDS designed a unique kiosk that combines finishes and textures including timber, veneer laminates and Hi Mac solid surfaces for the work benches.

Succeeding where so many fail, Gusto South Melbourne has now been trading for several years.

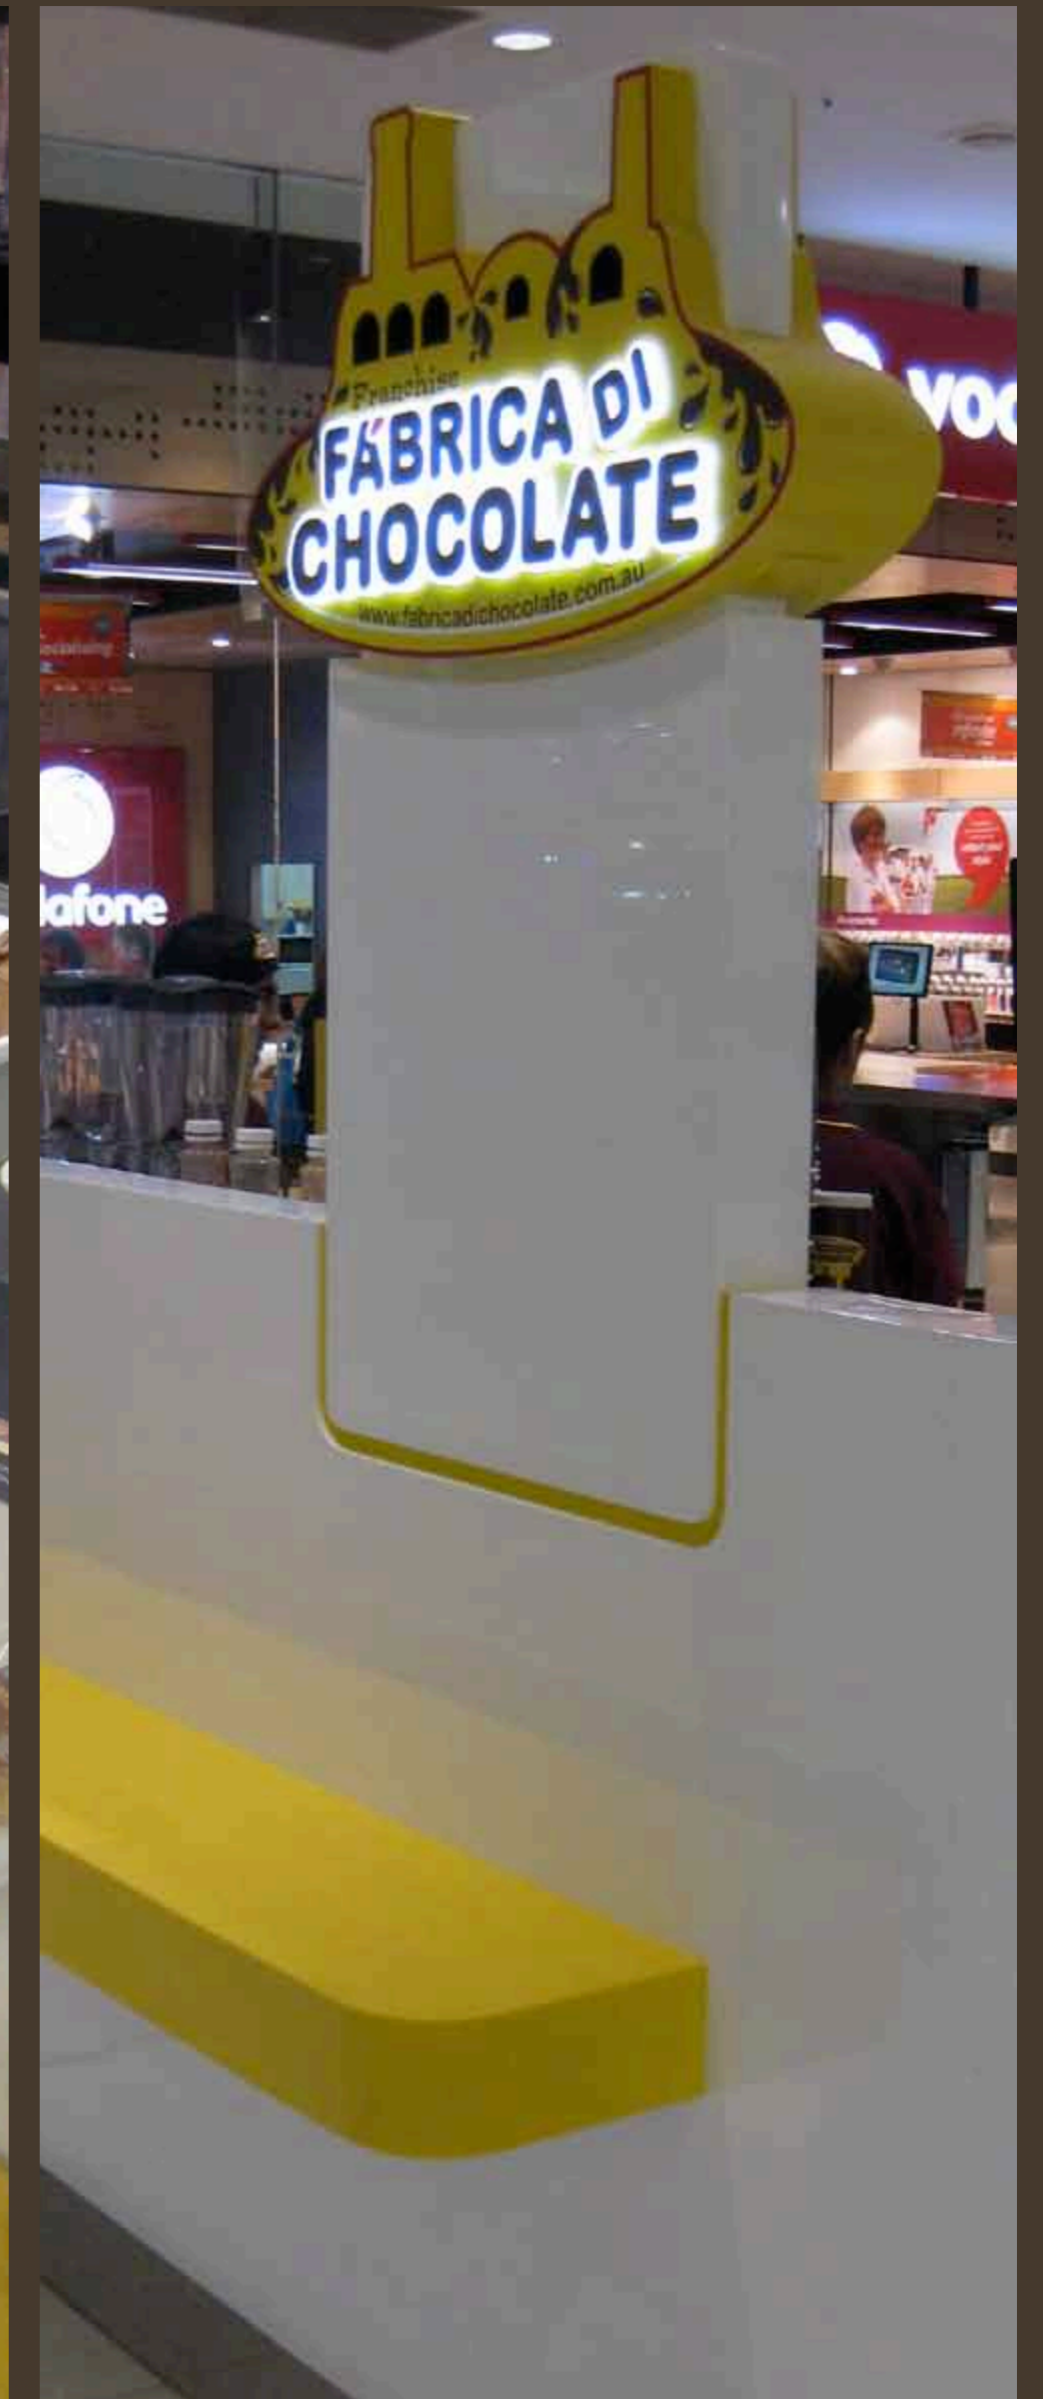

# Fabrica Di Chocolate

## "Fruit and chocolate"

In a kiosk location, Fabrica Di Chocolate combines fruit and chocolate, on site and in your favourite combinations.

CDS contributed construction to the project in conjunction with John Divatos from House Architecture.

The statement piece of the project was the curved, yellow counter, created from Marblo solid surfaces.
