Hawks History

“A dynamic tribute to the history of the Hawks Football Club”.

Working with Martin Lilford from Lilford Smith Design, CDS created custom showcases, with historical placement and layout managed by Martin Lilford.

The result was a dynamic tribute to the history of the Hawks Football Club, preserved for future fans.

Italians in Carlton

"Celebrating the history of Italians in Carlton".

Melbourne's marvellous multicultural history is celebrated at the Italians in Carlton exhibition. Designed by Russell McGee of Convergence Design and constructed by CDS.

"Hiring CDS for the job was a decision I never regretted" says Russell, "their professionalism, experience and speed saw the project proceed without a hiccup".

Salvation Army

“Capturing their traditions and valued work”

This heritage centre at 69 Bourke Street Melbourne was designed and project managed by Lilford Smith Exhibitions and displays. It focuses on the many individuals that have contributed to the Salvos work in Australia over the past 120 Years. CDS constructed the display fit-out, working closely with the client in order to meet their exacting specifications.

Stihl foyer

“Number one in Chainsaws”.

When it came to the design and construction of their new corporate headquarters foyer, STIHL chose CDS for the innovative design and construction.

The company history was clearly presented using Vivacity Light Panels. Chainsaws were displayed on laser cut Stainless Steel Puk Stands which floated above the Lumber Veneer Plinths.

The overall result was a simple and effective display that enabled the products to become the main focus.
